

Summer Internship - 2019

Computer Science & Engineering

Centre for Advanced Studies, AKTU, Lucknow.

(cas.res.in)

(In-Campus Research Institution of Dr. A.P.J.Abdul Kalam Technical University, New Campus, Jankipuram Extension, Lucknow).

Centre for Advanced Studies is a research driven institute of AKTU, Lucknow, designed with a vision of facilitating multidisciplinary research ventures in various fields. With world class infrastructure and dedicated team, CAS has created a special space for itself within research community in just a short span of time. Computer Science & Engineering program of CAS has high end research facilities including Google lab, Cyber city simulator lab, High performance computing lab to name a few. Website : cas.res.in

Dept. of Computer Science & Engineering invites applications from interested students for two month's summer internship in following domains:

- Cyber Security.
- Algorithms.
- Machine learning applications in
 - *Image Processing and Computer Vision.*
 - *Biomedical Engineering (Biomedical Devices).*
 - *Medical Image processing and bioinformatics.*
 - *Agriculture, Aquaculture & Food Engineering.*
 - *Biological Applications.*
- Deep Learning in Biological and Medical Applications.
- Multi-Modal Biometric Applications and Security.
- Media Security Applications – Digital Watermarking in Image, Audio and Video.
- Software Defined Networking
- Network Security
- Blockchain Technology
- Wireless Sensor Networks
- Data Mining
- Big Data Analytics
- Machine Learning
- Cloud Computing
- Applications in IoT
