Uttar Pradesh, Lucknow

**31<sup>st</sup> August, 2018**

NBA  
Accredited  
B.Pharm Program

NIRF 2018  
(Rank Band 76-100)

## Organized by I.T.S College of Pharmacy

**Address:** Delhi-Meerut Road, Murad Nagar,  
Ghaziabad, Uttar Pradesh-201206

**Mob:** 9891707297 / 9958827392  
**Email:** aktuseminar.pharm@its.edu.in

### About I.T.S - The Education Group

I.T.S - The Education Group is one of the renowned educational groups in Northern India, established in 1995 with its campus at Mohan Nagar, Ghaziabad. The Group now has four campuses, i.e. at Mohan Nagar, Murad Nagar and Greater Noida with the prime objective of providing quality education.

### About I. T. S College of Pharmacy

I.T.S College of Pharmacy was established in 2004, in a beautiful green campus on Delhi – Haridwar National highway. The institute is running M. Pharm in three disciplines (Pharmaceutical Chemistry, Pharmaceutics and Pharmacology). 10 batches of B. Pharm have passed out and students are placed throughout India and abroad. The institute has been a nurturing ground for Pharmaceutical professionals and has a strong infrastructure i.e. well equipped laboratories, well documented library with DELNET, molecular modeling software, CPCSEA approved animal house, highly qualified faculty and state of the art instrumentation facilities.

### About the Seminar

Pharmacovigilance is the science related to detection, evaluation, understanding and prevention of adverse effects or any other likely medicine related problems. The main aim of pharmacovigilance is to improve patient care and safety in relation to the use of medicines. According to WHO's report, more than 80% world's population uses herbal medicine however the adverse reactions to these drugs are seldom reported. Simultaneous use of herbs with modern drugs complicates the situation.

### Objectives

This Seminar will bring different representatives on a platform that will address the key issues of the herbal pharmacovigilance. The Seminar will discuss the on-going pressing concerns involved in herbal drug safety evaluation, addressing the factors, timeline and budget constraints. The in-depth program will cover discussion on the various issues in detection, analysis and prevention of adverse herb-drug interactions with case studies and industry experiences to understand and learn the latest insights, tools and knowledge to catch up with the current scenario of herbal pharmacovigilance. It brings focus to reporting of ADRs.

### Seminar Outcomes

Academic outcomes: This Seminar will provide a focused prospect to know about the current scenario in herbal pharmacovigilance and methods/techniques for Patient care and safety there by offering best practices, services and further employment for the students, academicians and delegates from different backgrounds.

**Social Outcome:** The knowledge of adverse drug reactions reporting will help in better understanding and service offerings for a broader social scenario.

**Commercial Outcome:** The herbal pharmacovigilance data will help in customized drug development and will impact the Pharmaceutical R&D for patients' good.

### Eligibility

The program is open to faculty members, M.Pharm students, B.Pharm students, Research scholars, CEO & CSO working in industries.

Abstract (250-350 words) submission for Oral/Poster through [aktuseminar.pharm@its.edu.in](mailto:aktuseminar.pharm@its.edu.in) on all the topics of pharmacy before 13<sup>th</sup> August, 2018.
