About RKGITM

Raj Kumar Goel Institute of Technology & Management (RKGITM) is one of the pioneer Institute providing quality technical education in NCR. It was established in 2008 as Women Institute (RKGITW), which was converted to co-ed in 2016 as RKGITM. The Institute is affiliated to Dr. APJ Abdul Kalam Technical University Lucknow (AKTU) and is approved by AICTE, Ministry of HRD, Government of India.

RKGITM is well known for providing congenial and homely environment for the Students. RKGITM is endowed with all convenient amenities and good infrastructure, for comfortable stay of the students during institute hours, and their motivation for studies. Our goal is to provide holistic knowledge to all the budding engineers striving for excellence in all quests like academia, personality development, leadership and entrepreneurial skills. To attain this goal, we are striving hard to update ourselves with latest technologies. We regularly organize FDPs, Workshops, Conferences and Seminars, Guest Lectures to expose the faculty members and students with the recent technical trends. The eminent scientists and professionals are invited to meet the above objectives.

About Seminar

This seminar is being organized to benefit the faculty members, R&D engineers and researchers, who wish to learn the techniques and recent developments of MATLAB with reference to engineering applications. This two day seminar on "APPLICATIONS OF MATLAB IN ENGINEERING" will elaborate the basic concepts and developments in the past three decades. The developments in MATLAB has resulted in better designing and process optimization.

About MATLAB

MATLAB is a large performance language for technical computing, It integrates computation, visualization and programming in an easy to use environment where problems and solutions are expressed in familiar mathematical notation. MATLAB features a family of application specific solutions called toolboxes. To enable an in depth discussion of ideas on this important theme we are organizing the National Seminar on "**APPLICATIONS OF MATLAB IN ENGINEERING**". Each technical session will consist of presentation by eminent invited speakers followed by discussion on queries of participants.
