Summer training project report

1. At the end of 8th semester examination, every student of MAM will undergo on-the-job practical training in any manufacturing/service or financial organization. The training will be of 6 to 8 weeks duration. The college/institute will facilitate this compulsory training for students.

2. During the training, the student is expected to learn about the organization and analyse and suggest solutions of a live problem. The objective is to equip the student with the knowledge of actual functioning of the organization and problems faced by them for exploring feasible solutions and suggestions.

3. During the course of training, the organization (where the student is undergoing training) will assign a problem/project of the student.

4. The student, after the completion of training will submit a report to the college/institute which will form part of third semester examination. However, the report must be submitted by the end of August during third semester so that it is evaluated well in time and third semester results are not delayed.

5. The report (based on training and the problem/project studied) prepared by the student will be known as summer training project report. The report should ordinarily be based on primary data. It should reflect in depth study of micro problem, ordinarily assigned by the organization where student undergoes training. Relevant tables and bibliography should support it. One comprehensive chapter must be included about the organization where the student has undergone training. This should deal with brief history of the organization, its structure, performance products/services and problem faced. This chapter will form part 1 of the report. Part 2 of the report will contain the study of micro research problem. The average size of report ordinarily will be of 100 to 150 typed pages in standard font size (12) and double spacing. Three neatly typed and soft bound (paper back) copies of the report will be submitted to the college/institute. The report will be typed in A-4 size paper.

6. The report will have two certificates. One by the head of the institute/college and the other by the reporting officer of the organization where the student has undergone training. These two certificates should be attached in the beginning of the report.

7. The report will be evaluated by two external examiners. It will carry total of 150 marks divided into written report of 100 marks and presentation of 50 marks. There will be no internal examiner. Only such person will evaluate the project report who has minimum three years of experience of teaching MAM classes in a college/University. Experience of teaching MAM classes as guest faculty shall not be counted.

8. It is mandatory that the student will make presentation in the presence of teachers and students. The student is expected to answer to the queries and questions raised in such a meeting.

Course Objectives:
- To understand the basics of IT infrastructure.
- To understand the importance of cyber security & various laws related to cyber crimes.
- To enable the student to understand employment opportunities in BPO.

Unit I (08 sessions)
Introduction - Information Technology, Computer Hardware, Computer Software, Network and Internet, Computing Resources.

Unit II (08 sessions)
Storage Management - Backup & Storage, Archive & Retrieve, Space Management, Database & Application Protection.

Unit III (08 sessions)
IT Ethics - Introduction to Cyber Ethics, Privacy and Law, Ethics and Internet, Cyber Crimes.

Unit IV (08 sessions)
Business Process Outsourcing – Basics, Benefits of BPO, Growth Drivers, BPO Models and Types of Vendors, Off shoring – BPO Companies in India.

Unit V (08 sessions)
Introduction to Health Care BPO, Transaction Processing and Human Resource BPO, Emerging BPO Domains, Media and Entertainment BPO, Publishing BPO.

Suggested Reading:
Course Objectives:
- To understand various models & structure of data warehousing.
- To enhance the knowledge of DBMS & other data mining.
- To understand the importance and applications of Data – Mining.

Unit – I (08 sessions)

Unit – II (08 sessions)

Unit – III (08 sessions)

Unit – IV (08 sessions)

Unit – V (08 sessions)

Suggested Reading:
5. Margaret H. Dunham, “Data-Mining. Introductory & Advanced Topics”, Pearson Education
Course Objectives:

- To develop the understanding of various models computer network.
- To enhance the skills of detecting errors and making corrections in multiplexing.
- To enable the students to get prevented from security attacks.

UNIT-I (08 sessions)

Basic Concepts: Components of data communication, distributed processing, standards and organizations. Line configuration, topology, Transmission mode, and categories of networks.

UNIT-II (08 sessions)

Transmission Media: Guided and unguided, Attenuation, distortion, noise, throughput, propagation speed and time, wavelength, Shannon capacity, comparison of media.

UNIT-III (08 sessions)

Telephony: Multiplexing, error detection and correction: Many to one, One to many, WDM, TDM, FDM, Circuit switching, packet switching and message switching.

Point to point controls: Transmission states, PPP layers, LCP, Authentication, NCP.

UNIT-IV (08 sessions)

Devices: Repeaters, bridges, gateways, routers, The Network Layer; Design issues, Routing algorithms, Transport layer functions, functions of session layers, presentation layer and application layer.

UNIT-V (08 sessions)

Introduction to security attacks, services and mechanism, Classical encryption techniques substitution ciphers and transposition ciphers, cryptanalysis, Stream and block ciphers. Modern Block Ciphers: Block ciphers principles, Data encryption standard (DES), Principals of public key crypto systems, RSA algorithm, security of RSA, Digital signature, threats to internet, threats to electronic transactions, Electronic mail security.
